

PurgoUV-13

PurgoUV-13 Air Sanitizer protects personnel and visitors from infection due to airborne pathogens in crowded or poorly ventilated areas, and in situations where the risk of cross-infection is high. The PurgoUV-13 air sanitizers will:

- Supplement your existing system and quickly reduce select airborne particles without having to replace or modify your current HVAC equipment.
- Utilize (254nm) Germicidal Ultraviolet (UV) lamps to effectively destroys the DNA of airborne microbes including bacteria, mold and virus in enclosed occupied spaces.
- Use a 90% High efficient long-life MERV (Minimum Efficiency Reporting Value) filter which removes airborne particles as small as 0.3 microns.

Features

- Interlock safety switch disconnects power during service
- UV Bulb average life span up to 10,000 hours (72 watts)
- Portable vertical design for smaller footprint
- Heavy duty lockable casters for easy transportation
- Pre-wired power cord means no installation is required

Specifications

- Filtration Level: MERV13
as defined by ASHRAE
- Model: NUV110-2
- CFM: 110
- Dimensions:
 - L: 15"
 - W: 15"
 - H: 48"
- Electrical Requirements: 110V Outlet
- Room Treatment Capacity:
 - Room Size: One Hour 6,000 cu/ft
 - Room Size: 2,200 cu/ft
(Treated as 3 room air changes/per hour)
 - Room Size: 1,650 cu/ft
(Treated as 6 room air changes/per hour)

Applications

- Restaurants
- Bank Lobbies
- Waiting Rooms
- Houses of Worship
- Hair Salons
- Office Buildings
- Conference Rooms
- Retail Stores
