

## **EPA's list "N" against COVID-19**

QuatSan - is an EPA Food Contact surface sanitiz-er, disinfectant, virucide, mildewstat, and cleaner with many benefits when used on hard non-porous surfaces. It is on the EPA's List "N" of disinfectants that meet the criteria for use against COVID-19. Designed for use in hospitals and health-care settings, public buildings, schools, places of wor-ship, industrial facilities, food processing centers, hospitality industries, and much more; as a one-step disinfectant-cleaner-virulence when used at 3 oz to 5 gallons of water dilution (450 ppm active). It is quick drying, safe around humans, and leaves no residue. One-gallon yields over 175 gallons of solution.

## **Partial List of Proven Effectiveness**

- · Covid-19
- Hepatitis C (HCV)
- Infuenza A
- HIV-1
- Yersinia enterocolitica
- Aspergillus niger
- Klebsiella pneumoniae
- Corynebacterium ammonigenes
- Listeria
- Listeria monocytogenes
- Methicillin Resistant (MRSA)

## **Technical Specifications**

- · Appearance: Red liquid
- Odor: Characteristic
- pH (1% solution, 22°C): <9.0
- Foaming: Moderate
- · Flash Point: None
- Density (lbs/gal, 22°C): 8.26 ±0.1
- Stability Range: 50-100°F
- Free Alkalinity (as Na2 O): None
- Solubility (in H2 O, 22°C): 100%
- Phosphate Content (as P): None
