

Heat exchanger and condenser Plasta Pigs are a “one of a kind” design which covers various deposit conditions and tube sizes. Scientifically engineered using a high-quality proprietary blend of TPE (Thermoplastic Plastic Elastomer). The Plasta Pig comes in either a soft or hard TPE to fit various tube sizes of 7/8” to 1 ¼”. A combination of the 4 cleaning/scraping surfaces and a center through hole ensures your tube is squeegee cleaned.

Deciding which cleaner to use is easy. Request a quote and talk to one of our sales professionals for the recommended Plasta Pig.

### Choosing the Right Plasta Pig

Soft – Mud, slime, biological growth, silt, etc

Hard – Harder deposits such as baked on clay, zebra mussels, clams, twigs, etc.

### Key Features

Hi-quality proprietary blend of TPE

Can be used with the Turbo Gun 35

Tube sizes: 7/8” – 1 ¼”

Color coded for ease of recognition

Bi-directional for ease of loading cleaner

Center through hole keeps the tube unobstructed during the cleaning process
